Les Stocker

NON-PROFIT CONSULTANT

As a long-time Executive Director of a non-profit, I can heartily endorse **Charitable Gift Annuities (CGAs)** as a great way to support non-profits. **The donors can make impactful gifts while securing a life-time fixed income.** In my experience I have had donors do several CGAs because they were so pleased to get regular payments while being charitable. It's really a win-win for the organization and the donor.

Dave Beringer

CPA AND PRESIDENT, THE BERINGER GROUP

I tell my clients who have low performing CDs that are ready to mature, to consider transferring the CDs to the Pasadena Community Foundation for a higher paying gift annuity. **In this low-interest environment, a Charitable Gift Annuity can be a smart financial strategy.** For clients with appreciated stocks, capital gains tax may be bypassed on a gift of appreciated securities to fund a **Charitable Gift Annuity**. A portion of the payment will be taxed at the lower capital gains rate and another portion may be tax free. Plus, there will be immediate tax savings from the donation.
